LOGISTICS

DAOS company have a large fleet of heavy duty trucks, low beds, Kenworth, forklifts and cranes with various capacities to provide daily transportation support and rig move services for its operations in Libya.

✓ RIG MOVE

After completing the job on an oil well, all the rig and its peripherals are dismantled and packed and loaded on or hooked to transportation equipment to be relocated to the next well. The number of loads varies from 45 to 75 loads according to rig size and capacity. DAOS transportation owns over 100 Head Trucks, IVECO, MERCEDES brands along with 6 Cranes to achieve safe, smooth, and time efficient rig moves.

✓ MATERIAL TRANSPORTATION

During the drilling time of the well, our transport section provides transportation services to transfer certain equipment and materials from client's and third party companies' warehouses, such as casing tubing, drilling bits, downhole tools. DAOS transportation owns 7 low beds and 10 high boys along with 5 half lorries to achieve safe, smooth, and time efficient material transportation.

✓ MANPOWER TRANSPORTATION

DAOS have over 25 employees serving the activities around the oil locations. DAOS transportation owns over 5 double cabin pickups, 4X4 ICU and 1 bus to secure work force to their locations safe and in comfort.

✓ FUEL TRANSPORTATION

All DAOS all equipment requires diesel for its engines operation, the diesel it is transported from the fuel dispensers and distribute it amongst DAOS working sites by DAOS in house transportation services. DAOS transportation owns 5 diesel tankers of various capacities that reaches 36,000 liters.

✓ WATER TRANSPORTATION

Constantly huge amount of water supply is required to be transported from water sources to the rigs by DAOS in house transportation services. DAOS transportation owns 3 water tankers.

✓ SEWAGE TRANSPORTATION

All DAOS working sites and camps are provided with sewage treatment plants. And because DAOS have environmental responsibilities and wariness, the management instructs the transportation services to collect the sewage from that site and dispose it in the dedicated pits specified by the municipality. DAOS transportation owns 2 sewage tankers.

“
We supplies of easy-to-access oil and gas will no longer keep up with demand.

FLEET MANAGEMENT

GPS Tracking Our vehicles and tankers are equipped with GPS devices to monitor the driving behavior, route and specify the location for emergencies.

✓ PREVENTIVE MAINTENANCE

All vehicles are periodically maintained in DAOS Fleet workshop according to the OEM Manual to grant extended service and greater lifetime.

✓ MIRROR REPAIRS

All minor repairs are completed in DAOS Fleet maintenance workshop including hose changes, Shaft, bearing, etc. Repairs Most of major repairs are completed in DAOS Fleet maintenance workshop including engine overhauling, gear overhauling, deferential corona, etc.

✓ MOBILE MAINTENANCE

DAOS Fleet maintenance have two mobile vehicles equipped and ready for mobile service around the clock and 24/7. These mobile maintenance vehicles will reach the broke down vehicle anywhere in Libya to provide the maintenance service.

✓ WORKSHOP MAINTENANCE

For vehicle body repairs DAOS perform all body maintenance in-house from bending to plastering to paining. DAOS workshop have the machinery and expertise to complete the job and retain the vehicle to its original shape and color.

✓ BREAKDOWN RECOVERY

In many cases, the vehicle breakdown in a remote area but it needs major maintenance, which cannot be performed remotely. DAOS mobile maintenance team have the capability to revive the vehicle and bring it to the workshop for the required maintenance. This team have vast knowledge of tricks and short cuts on how to revive a vehicle as most of our vehicles are difficult to be toed.

DRILLING SERVICES

DAOS main core activity is to provide Drilling & Workover services for oil companies. With collaborate of international drilling company such as **EAGLE Drilling** and **OGI** as well as our own rig (soon). We are able to serve our clients to drill their deep, medium & shallow wells and carry also Workover operations for the same.

The rigs are well equipped with latest technology in the market such as **Iron Roughneck, Top Drive, Automatic driller, Casing handling tools, hydraulic/ automatic Catwalk & Cyber chairs**, to ensure that always we provide our clients with the optimum and to drill their wells in a safe, controlled and optimum environment to ensure that wells are drilled or Workover and delivered as per its well program.
